**UPGRADE WORKS COMMENCING JULY 2007**  
**Day and night work**

---

27 June 2007

Dear householder,

The Sydney Harbour Bridge is regularly undergoing improvement, maintenance and further strengthening to ensure its longevity. A major program of works has been scheduled over the next two years.

This program of works will be delivered by the Bridgeworks Alliance, a team consisting of the Roads and Traffic Authority, Baulderstone Hornibrook, Connell Wagner and Austress Freyssinet.

Commencing early July 2007, materials will be delivered by barges to the underdeck of the bridge, weather permitting. These deliveries will largely occur Monday to Friday between 10am and 2pm. Some deliveries may also occur Sunday to Thursday between 9pm and 5am.

Materials will also be delivered by road onto the bridge. These deliveries will occur Sunday to Thursday between 9pm and 5am.

There may be some noise associated with these works and you may also notice materials being loaded and unloaded. Bridgeworks Alliance will ensure that all noise at night is kept to a minimum. Lighting will be used at night but will be directed away from nearby residences.

While this work may cause some inconvenience, this is essential work that must be done for the sake of this great national treasure. Thank you for your patience.

For further information, please contact Linda Armstrong on phone (02) 9463 9444 during business hours. For out of hours emergencies this phone will divert to a mobile.

Yours faithfully

Yvonne Tsukame  
RTA Interface Manager
