

Alstonville Bypass

Nominations

Community Liaison Group

Nominations are invited from the community to participate in a Community Liaison Group (CLG) as part of the Alstonville Bypass project

The CLG will be established to provide a forum for community, business and interest groups to have input into various aspects during the detailed design and construction phase of the project.

Those interested in becoming a member of the CLG can be nominated by themselves, an organisation or an informal group of residents from a particular area.

Representatives will be selected on the basis of various criteria to ensure that the group incorporates the widest possible range of community needs and visions.

Community Workshops

Expressions of interest are also being called for nominations for community workshops for those who wish to become involved in the project. These workshops aim to keep the community informed about the project and for the RTA to receive community feedback.

If you wish to obtain a nomination form or find out more about the group before nominating, please contact Dave Purdy, RTA Project Manager, on 0403098110 or Sonia Williamson, Regional Communications Officer on 66401327 (PO Box 576 Grafton NSW 2460).

Nominations close at 5 pm on Monday 1 September 2003.
