

Sydney Harbour Bridge

infrastructure improvements

18 AUGUST 2008

TEMPORARY STORAGE COMPOUND - KINGSGROVE

Dear resident/business operator,

The Sydney Harbour Bridge is regularly undergoing improvement, maintenance and further upgrading to ensure its longevity. A major program of works has been scheduled with completion planned for late 2009.

This program of works will be delivered by BridgeWorks Alliance, a project team consisting of the Roads and Traffic Authority, Boulderstone Hornibrook, Connell Wagner and Austress Freyssinet.

Starting on 20 August 2008, material and equipment being used for the upgrade of the Sydney Harbour Bridge will be temporarily stored at the RTA compound on Kingsgrove Road, adjacent to Forrester Reserve.

The compound will be in use for approximately 16 months. Trucks delivering material to the compound will enter the site via the main gate on Kingsgrove Road. This material will be loaded and unloaded by crane.

The anticipated operating hours of the compound are Monday to Friday from 7am to 6pm and Saturdays from 8am to 1pm.

The delivery of particularly large material may need to occur outside of normal working hours to meet with requirements of transport regulations.

There may be some noise associated with the unloading of material and reversing beepers from trucks. Materials delivered at night will not be unloaded until normal daylight working hours. BridgeWorks Alliance will ensure that all noise at night is kept to a minimum.

We apologise for any inconvenience caused by this essential work and appreciate your patience.

For further information, please contact the BridgeWorks Alliance office on (02) 9463 9444. For out-of-hours emergencies this phone will divert to a mobile number.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Steve Zhivanovich'.
