

Sydney Harbour Bridge

infrastructure improvements

25 AUGUST 2008

UPGRADE WORKS FOR SEPTEMBER - DECEMBER 2008

Day and night work

Dear Householder,

The Sydney Harbour Bridge is regularly undergoing improvement, maintenance and upgrading to ensure its longevity. A major program of works has been scheduled with completion planned for late 2009.

This program of works will be delivered by BridgeWorks Alliance, a project team consisting of the Roads and Traffic Authority, Baulderstone Hornibrook, Connell Wagner and Austress Freyssinet.

Between September and December 2008, material will be delivered by barges to the underdeck of the bridge, weather permitting. These deliveries will usually occur Sunday to Thursday from 10pm to 2am.

Construction material will also be delivered by road onto the bridge. These deliveries will largely occur Sunday to Friday from 9.30pm to 7am. You may also notice material being loaded and unloaded by cranes from time to time.

There may be some noise associated with the use of equipment, reversing beepers from trucks and the setting up and removal of temporary scaffolding.

BridgeWorks Alliance will ensure that all noise at night is kept to a minimum. Lighting will be used at night but will be directed away from nearby residences.

We apologise for any inconvenience caused by these essential works and appreciate the patience of residents.

For further information, please contact the BridgeWorks Alliance office on (02) 9463 9444. For out of hours emergencies this phone will divert to a mobile.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'G. Simpson', written over a white background.
