# VSI and VIB Manuals

These manuals include copies of Vehicle Standards Information sheets (VSIs) and Vehicle Inspectors Bulletins (VIBs).

**VIBs** are intended to be temporary in nature. They are used for:

- informing changes concerning inspection procedures or requirements prior to formally updating the AIS Rules manual.
- formal communication with Authorised Examiners and Inspectors, Vehicle Regulations.

Successive updates of the AIS rules manual will terminate effectivity of all (or listed) outstanding VIBs.

**VSIs** are intended for general publication and set out policy on standards matters as well as being a source of information.

## Revisions

VSIs and VIBs will also replace Automotive Information Sheets (Auto Info), Authorised Inspection Station Bulletins (AIS-B), and Vehicle Inspection Procedures (VIP). These publications are currently being reviewed and will either be rescinded or incorporated in other Vehicle Standards publications.

*Any rescinded publication must be destroyed.*
