Inspection Requirements for Original Registration of Vehicles with a GVM or GTM exceeding 4.5 tonnes

Rules for Authorised Inspection Stations - Heavy Vehicles address the roadworthiness requirements for annual inspection of registered vehicles. However, they do not specifically address all of the additional checks related to design features that are normally required for original registration.

To assist Authorised Inspection Stations in carrying out inspections of Heavy Vehicles for original registration, the RTA publications listed below set out in more detail the design requirements such as position of lighting equipment and vehicle dimensions.

Vehicle Standards Information (VSI) sheets

- VSI.04 Imported Vehicles.
- VSI.16 Natural Gas Fuel Systems for Motor Vehicles
- VSI.22 Electric Brakes fitted to Large Trailers
- VSI.30 Hydraulically Steered Motor Vehicles

Vehicle Inspectors Bulletins (VIBs)

- VIB.07 Inspection of "Federal Interstate" Registered Vehicles
- VIB.08 Anti-Lock Braking Systems (ABS) – Special Inspection Requirements
- VIB.11 Testing of Parking Brakes on Vehicles built to meet ADRs 31, 35 or 35A

These publications can be obtained from any RTA Motor Registry or can be downloaded from the Vehicle Standards page of the RTA website at www.rta.nsw.gov.au.

FURTHER INFORMATION
