- Urban Design Opportunities
Attractive Queen Street vista south, to proposed Kangaroo Valley Road Interchange.
Queen Street & Kangaroo Valley Road intersection – dramatic sweep, level change, row of mature Eucalypts mark the current entry to town.
Kangaroo Valley Road vista northwest.
Dramatic northern panorama from the middle of the proposed Kangaroo Valley Road Interchange.
Existing residential rear fences fronting Queen Street.
Opportunity to complete footpath link from Queen Street to Mark Radium Park.
The attractive mature stands of Eucalypts of Mark Radium Park.
Existing Mark Radium Park footpath system.
Victoria Street vista west to Princes Highway – possible location for street closure and extension to Mark Radium Park.
Victoria Street view east, entry to The Arbour retirement village on right.
Existing southern Princes Highway approach to Berry.
An abundance of signage detracts from the arrival experience.
Huntingdale Park residential estate entry off Kangaroo Valley Road.
Distinctive sandstone entry signage establishes estate character.
Typical Huntingdale Park streetscape character.
Large retaining wall supports east side of Huntingdale Park Road.
Kangaroo Valley Road streetscape – Existing Huntingdale Park entry and properties potentially impacted by relocation of entry.
1. Urban development consolidated to the east and west.
2. Attractive streetscape vista west to the proposed interchange.
3. Queen Street falls away dramatically at its western end.
4. Attractive tall Eucalypt trees mark arrival.
5. Main Street residential is setback with front gardens.
6. Preserve integrity of Mark Radium Park.

7. Limit through traffic on Victoria Street.
8. Profusion of signage detracts from arrival.
9. Waterways, wetlands and ponds - characteristic valley landscape.
11. Attractive panoramic views of rural landscape/escarpment.
12. Huntingdale Park Road retaining wall is visually prominent.
1. Establish a continuity of streetscape from Queen Street to Kangaroo Valley Road.
2. Provide vista along Queen Street.
3. Provide Queen Street to Mark Radium Park pedestrian connection.
4. Provide path to Windsor Drive residential neighbourhood.
5. Provide recreational pathway from Kangaroo Valley Rd to North St.

6. Establish an arc of interconnected green spaces.
7. Establish recreational corridor along Town Creek alignment.
8. Capture attractive views in Bypass driving experience.
9. Establish attractive Berry township arrival experience.
10. Incorporate Eucalypts into township arrival experience.
Potential land uses for residual open space

- Adjustment
- Public park
- Limited residential development?

Interconnected green spaces

Berry Oval/sports precinct to new retirement communities

Arc of Green Space/Residual Lands
Pedestrian/Cyclist Links

Connection from Kangaroo Valley Road to North Street

Recreational shared path along north side of North Street

Connect to future recreational walk along Town Creek

Connection from Queen Street to Mark Radium Park

Long term recreational circuit around township
Noise Mitigation Strategy + Visual Amenity

- Consider views from township and from bypass.
- Screen with vegetation characteristic of floodplain.
- Hah-Hah concept - retain escarpment views.
- Relationship of noise barrier and existing retaining wall to be considered.
Precedents - Landscape Batters
