Roads and Maritime Services (RMS) held a workshop on Tuesday 24 July 2012 to discuss the long term management of trees along the Kings Highway at Braidwood for subsequent development of a Tree Management Plan. Your additional input is invited.

NAME ______________________________________  ADDRESS ________________________________

PHONE NUMBER ____________________________  EMAIL ________________________________

ORGANISATION (if applicable) ___________________________________________________________

1. Did you attend the workshop about long term management of trees along the Kings Hwy?

2. Where should the avenues start and finish?

3. What is important about the species that make up the avenue?

4. How should the existing avenue transition into a future alignment?

5. How should a new avenue of trees be maintained?

For the section of the Kings Highway WEST of Braidwood:

All information included in correspondence is collected for the sole purpose of assisting in the assessment of this proposal. The information may be used by RMS and/or the RMS’s project contractors. All information received, including names and addresses of respondents, may be published in subsequent assessment documents unless clear indication is given in the correspondence that all or part of the information is not to be published.
For the section of the Kings Highway EAST of Braidwood:

6. Where should the avenues start and finish?

7. What is important about the species that make up the avenue?

8. How should the existing avenue transition into a future alignment?

9. How should a new avenue of trees be maintained?

10. Was the information provided to you during the workshop useful?

11. Would you like to receive information about this project in the future? If yes, how would you like to be contacted, email or post?

12. General comments
