The NSW Government is upgrading Balmain East Wharf as part of the Transport Access Program. It is expected work will start in late 2014 and construction will take around four to five months. The Balmain East Wharf will be closed during this period.

Transport Access Program

The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney’s ferry service for customers.

The new wharf is being delivered as part of the NSW Government’s $770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure.

The new wharf will reflect its growing importance as part of the ferry network and enable two ferries to berth at the same time.

Community feedback

Communication about the Balmain East Wharf upgrade project started in June 2014. This included a distribution of a community brochure, door-knocking, a community information session, letters to key stakeholders and local advertising.

In response to valuable feedback from residents and stakeholders regarding the position of the new wharf, further assessments were carried out to determine if there was a suitable alternative. A number of factors need to be considered including, safety, efficient ferry operations, accessibility, environmental and heritage impacts.
Talk to us

We now invite you to come along to a community information session where members of the project team will provide information about the proposed position including artist’s impressions, and respond to other important feedback received during consultation. The details are:

Balmain Town Hall
370 Darling Street, Balmain
Wednesday 15 October 2014
From 6.30pm to 8.30pm

Presentation 6.30pm to 7pm followed by an opportunity to view information and speak to members of the project team.

Customer benefits

• Better protection from the wind, rain and sun
• Improved safety for customers
• Improved access for mobility impaired customers and customers with prams
• Quicker and more efficient boarding and disembarking
• Future capacity for two ferries to berth at the wharf at the same time, providing for additional services.
