Roads and Maritime Services is upgrading the stairs connecting Milson Road and Cremorne Reserve to improve pedestrian access to Cremorne Point Wharf as part of the NSW Government’s Transport Access Program.

The upgrade involves the removal and replacement of the existing stairs to improve access to the harbour foreshore including Cremorne Point Wharf and Cremorne Point Reserve. Landscaping and drainage work will also be carried out and new seating, handrail, bike rack and lighting will be installed.

Work is scheduled to finish, and new stairs open, by the end of June 2016 after a delay due to unexpected ground conditions discovered during the removal of the existing stairs.

- The stairs are temporarily closed during construction, pedestrians will be able to access the foreshore by the footpath connecting to Milson Road
- Two accessible parking bays located within the construction work area are closed during construction, a temporary accessible parking space is provided near the Cremorne Point Wharf entrance
- All other existing parking spaces on Milson Road are unchanged
- Access to the wharf, café, post box and the adjacent Sydney Water Pumping Station will be maintained
- Work will be carried out during standard construction hours - 7am to 6pm Monday to Friday and 8am to 1pm on Saturdays. No work will be carried out on Sundays or public holidays.
