Windsor Road Northbound Bus Bay, Baulkham Hills

Project update – work complete

Roads and Maritime Services | March 2018

The NSW Government has funded this project as part of the Bus Priority Infrastructure Program, which aims to improve the reliability and efficiency of bus services, while easing congestion for all road users.

Roads and Maritime Services has completed the Windsor Road Northbound bus bay between Torrs Street and Cook Street, Baulkham Hills.

Open to traffic

The improvements were opened to traffic on Wednesday 7 March. We have included a photo of the extended bus bay over the page.

We will remove our site compound from the council carpark by Friday 16 March.

To complete the project we will return to site in late March to install a traffic counter across Windsor Road.

Key benefits

The project has increased the capacity of the bus bay to allow for three buses.

The key benefits to the community include:

- improved bus service reliability
- improved travel times for motorists by allowing northbound traffic to move past buses at the bus stop
- improved accessibility to the bus service
- improved safety for pedestrians and motorists.

Our work schedule

We will be on site for three night shifts between Sunday 25 March and Friday 6 April to install the traffic counter. Our night work hours continue to be between 8pm and 5am from Sunday to Friday.
Thank you

We appreciate your patience while we delivered this important project.

Windsor Road bus bay extension – now open
