Project update - Completion of the overtaking lanes at Sites 2 and 3 on Bells Line of Road, Kurrajong Heights/Bilpin

The NSW Government is funding this $48 million program of work to improve road safety and traffic efficiency on Bells Line of Road between Lithgow and Kurrajong Heights.

Roads and Maritime Services delivered the projects and in February will finish the final stages of the overtaking lane at Site 2 and Site 3.

The completed work includes:

- Installing new property fencing at Site 2, pavement construction, drainage improvements, asphalt, line marking and sealing the existing road.
- At Site 2, building a one kilometre long eastbound overtaking lane, east of Glenara Road and Pittmans Road, Kurrajong Heights.
- At Site 3, building a 1.2 kilometre westbound overtaking lane, starting 300 meters west of Tadrosse Lane, Bilpin.

We will continue to monitor the road surface at Sites 2 and 3 throughout the holidays and into the New Year. If additional work is needed it may need to be completed at night, when the temperatures are cooler. We expect to work up to six night shifts. Our working hours will be from 8pm until 5am.

How will this work affect you?

Our work will be noisy at times but we will do everything we can to minimise its impact, including completing the noisier activities by 11pm.

Thank you again for your patience during this important work. Your support is important as we continue to deliver safer and more efficient journeys throughout NSW.

Other work in your area

In November, Roads and Maritime finished construction of Site 8 on Bells Line of Road, near Bell. The work includes widening the road in both directions and creating a centre median to improve traffic efficiency between 800 metres north of Pierces Pass turn off, continuing toward Bell for 1.4 kilometres.
