Possible delays on the Great Western Highway from Hartley Valley to River Lett Hill from Wednesday 8 June

The Australian and NSW governments are undertaking a $250 million upgrade package on the Great Western Highway between Katoomba and Lithgow to improve traffic flow, safety and travel conditions.

Roads and Maritime Services continues to deliver this important upgrade of 14 kilometres of the Great Western Highway from Hartley Valley to Forty Bends.

Roads and Maritime is carrying out asphalting on the Great Western Highway from Hartley Valley to River Lett Hill. This work has been carried out at night to reduce the impact on traffic, however the colder than expected temperature is affecting the laying of the asphalt and is causing delays to the construction of the project.

The work will now be carried out during the day and includes:

- Installing traffic controls and temporarily modifying pedestrian access
- Establishing safe access and egress points for workers and vehicles
- Adjusting current road surface height
- Asphalting and line marking.

We have included a map to show where the work will take place.

This work will take up to 30 shifts between Wednesday 8 June and Friday 29 July, weather permitting. Our working hours will be from 7am to 6pm, excluding Saturday and public holidays.

How will the work affect you?

There will be some noise and possible traffic delays associated with this work. These delays could be up to 10 minutes. We will make every effort to minimise noise and delays, including ensuring our work program allows opportunities for respite.
**Traffic changes**

Temporary traffic changes will be in place to ensure the work zone is safe. Lane closures will be in place and may affect travel times. Traffic on the Great Western Highway will be maintained using traffic control during this work. Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App for iPhone, iPad and Android.
