Night work on the Great Western Highway, Mt Victoria Village from Sunday 10 December

The Australian and NSW governments are undertaking a $250 million upgrade package on the Great Western Highway between Katoomba and Lithgow to improve traffic flow, safety and travel conditions.

Roads and Maritime Services is continuing to deliver an important 1.6 kilometre upgrade of the Great Western Highway through Mount Victoria Village. As part of this work we will be installing stormwater drains under the Great Western Highway in Section 2 and installing the final layer of asphalt and road marking throughout Sections 1, 2 and 3.

To minimise the impact to road users and residents this work will take place at night. Our working hours will be between 7pm and 6am.

Stormwater drainage work

The installation of the stormwater drain will take up to three shifts of night work to complete between Sunday 10 December to Thursday 14 December, weather permitting. The work will include:

- installing traffic control, and closing one lane of traffic and lighting
- excavating the Great Western Highway
- installing the new stormwater pipe, backfilling and reinstating the road surface.

Asphalt and road marking

The final layer of asphalt and the road marking work will take up to five shifts of night work to complete between Sunday 10 December to Thursday 14 December, weather permitting. We will not conduct more than three consecutive shifts of night work in the same location.

The work will include:

- installing traffic control and lighting
- cutting the existing asphalt pavement
- placing and compacting multiple layers of new asphalt
- road sweeping.

How will the work affect you?

There will be some noise and possible traffic delays associated with this work. We will make every effort to minimise noise and delays, including ensuring our work program allows opportunities for respite.
Traffic changes

Temporary traffic changes will be in place to ensure the work zone is safe for motorists and workers.

Please keep to speed limits and follow the direction of traffic controllers and signs. Please plan your journeys to allow for possible delays. For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our project team on 1800 035 733 or K2Lupgrade@rms.nsw.gov.au. For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
