Night work and traffic changes on the Great Western Highway, Mount Victoria village, from Monday 27 February

The Australian and NSW governments are undertaking a $250 million upgrade package on the Great Western Highway between Katoomba and Lithgow to improve traffic flow, safety and travel conditions.

Roads and Maritime Services is continuing to deliver this 1.6 kilometre upgrade of the Great Western Highway through Mount Victoria village.

Night work in Section One and Three

Roads and Maritime will carry out asphalting in Sections One and Three of the project area from Monday 27 February to Friday 3 March.

Asphalting will take place eastbound along the Great Western Highway in Section One of the Mount Victoria village project area from 400 metres west of Browntown Oval to about 240 metres west of Victoria Falls Road.

As part of the work through Section Three in Mount Victoria village, traffic changes will be in place east of Kanimbla Valley Road and the Great Western Highway intersection, through to the western limit of work near Fairy Dell Road while asphalting and line marking work is carried out.

To prepare for the minor traffic changes, we will carry out up to five shifts of night work between Monday 27 February and Friday 3 March, weather permitting. Our working hours will be from 8pm to 6am. The work will involve:

- installing new line marking
- asphalting
- establishing traffic barriers and guides
- installing temporary lighting towers
- installing electronic message signs and road work advisory signs to notify motorists of the changed traffic arrangement.

We have included a map to show the sections of the work in the project area.

How will the work affect you?

There may be noise and light associated with the work but every effort will be made to minimise its impact including completing noisier work earlier in the evening, where possible, organising work to allow opportunities for respite, arranging work in stages in different locations, and working no more than three consecutive nights at the same location.

Every effort will be made to focus light only on the working area however there may be minor spill over of light into some nearby residences.
Traffic changes

Temporary traffic changes will be in place to ensure the work zone is safe for traffic. Traffic on the Great Western Highway will be maintained using traffic control during this work. Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates call 132 701, visit livetraffic.com or download the Live Traffic NSW App for iPhone, iPad and Android.
